OHA 284 Radiation Effects Slide Set

Date of Records: 1940s-1950s

Finding Aid: Eric W. Boyle (2014)

Size: 1 box

Series/Scope and Content Note: This AFIP training set of 35mm slides demonstrate radiation treatment of tumors. Each of the 13 cases include a description of the diagnosis, subject information including ASN and AIP numbers, and a brief case history including treatments administered over the course of a series of weeks. Slides are labeled with numbers corresponding to treatment received for each case.

BOX AND CONTENT LIST

Pamphlet: "Lantern Slide Teaching Set on Radiation-Effect (Histopathologic Studies)"
